

# YASMINA JABROUNI

Mobile Application Development Student

Bloc E Hay Zaitoune., Agadir Morocco • +2126-22102048 • yasminajabrouni@gmail.com

Passionate and motivated mobile application development student. With a strong foundation in Dart and related technologies, I am dedicated to creating modern, efficient, and user-friendly mobile applications. Constantly eager to learn and improve, I strive to develop innovative solutions that enhance user experiences.

## EDUCATION

**Technician specialized in Digital Development**

Sep 2023 -Present

CMC AGADIR

- Specialized in Mobile Application Development

**1 Year student in Mathematical and Computer Science**

Sep 2022 -June 2023

Faculty of Science, Ait Melloul, Agadir

- Studied foundational concepts in mathematics and computer science

**High School Diploma in Physical Sciences**

Sep 2021 - June 2022

Al Amal High school

- Obtained with honors

## PROJECTS

**Jobmate | CMC AGADIR**

January 2025

Developed a dynamic website with Java Spring Boot and React js offering job and internship search functionality within Morocco. The platform features two main sections: the Job Hunter side for users to search and apply for opportunities, and the Recruiter side for companies to post and manage job listings.

**Stock Management App | CMC AGADIR**

November 2024

Developed a stock management application using Java Swing, incorporating full CRUD operations. This mini app allows users to manage product data efficiently, with the unique feature of adding products via QR code scanning, utilizing the ZXing library for QR code reading.

## TECHNICAL SKILLS
